PROSPECTS

Growth and Resilience Amid Challenges

2011 in Review

Business Performance

In 2011, sovereign debt problems continued to plague Eurozone nations, inflationary pressure rose globally, and the pace of U.S. recovery from the 2008 financial crisis was less robust than anticipated. Against this backdrop, the worldwide economic and business environment has become increasingly challenging.

Maintaining a balance between progress and stability has always been one of the Group's prime operating principles. Prior to the onset of the financial crisis, the Group had already adopted prudent measures to minimise the impact of external forces. Investments were cautiously made during the year, strictly adhering to our fundamental financial policy of maintaining a healthy debt ratio. The Group has again demonstrated its resilience in this difficult operating environment, and continued to deliver solid performances on all fronts.

Our overall operating results were favourable. For the year ended 31st December, 2011, the Group's profit before share of results of the Hutchison Whampoa Group was HK\$18,068 million, a rise of 8% over the previous year.

We achieved a solid performance in our core property businesses, with strong progress being made in enriching our portfolio and strengthening the revenue drivers. In 2011, major performance indicators were generally in line with our expectations. Contributions from property sales as well as hotels and serviced suites improved over last year. A one-off gain was recorded arising from the injection of the Group's interest in Oriental Plaza in Beijing into Hui Xian Real Estate Investment Trust which is listed on the Hong Kong Stock Exchange.

The property market sentiment in Hong Kong has been conservative since the middle of 2011 amid heightened external uncertainties. However, market conditions are expected to remain stable due to solid market fundamentals, continuing purchasing power, low levels of unemployment, low interest rates, together with rising construction costs fuelled by high inflation.

The Group has executed various development initiatives in 2011, and the marketing of its projects has been well-received by the market. Our landbank has been expanding in a healthy, sustainable manner, with a number of selectively chosen high-quality sites successfully acquired at reasonable prices. With ample land resources, we are well placed to continue to generate steady streams of revenue at attractive margins.

The Mainland's property market faced challenges as home prices in major cities continued to soften. However, we are cautiously optimistic about the future given the Central Government's ongoing tightening measures to help ensure a stable and healthy property market over the long term, and the anticipated increases in purchasing power and housing demand supported by rising labour wages which will outpace inflation.

In overseas markets, the Group is progressing well and in accordance with its development and marketing schedules. We are focused on securing suitable investment opportunities to extend further our footprint beyond Hong Kong, leveraging our accumulated expertise and experience in providing comprehensive property developments to accommodate diverse market needs and aspirations.

Listed Affiliated Companies

The Group continued to benefit from the global opportunities arising from its strategic investments in listed affiliated companies, particularly through the Hutchison Whampoa Group's diversified portfolio of global businesses. In 2011, businesses in markets beyond Hong Kong continued to perform favourably and generate increased profits to the Group and its listed affiliated companies.

The Hutchison Whampoa Group

In 2011, the Hutchison Whampoa Group's core businesses and operations spanning 53 countries continued to perform well. Its balance sheet and liquidity were strengthened through a number of successful equity capital markets transactions, including the initial public offer of units in Hutchison Port Holdings Trust listed in Singapore. The 3 Group achieved improved EBITDA and a second year of EBIT positive results. The acquisition of a 100% interest in Orange Austria by Hutchison 3G Austria, which is expected to complete in mid-2012 subject to regulatory approval, is expected to create operational synergies and efficiencies, which should result in corresponding increases in 3 Austria's contribution to the 3 Group. Prospects for the Hutchison Whampoa Group are promising. It is well positioned for continued growth and will continue to invest and expand its core businesses.

CKI

In 2011, businesses of Cheung Kong Infrastructure Holdings Limited ("CKI") have generated strong results and recorded good organic growth. Profit contributions from overseas businesses were higher than that of Hong Kong operations. Two acquisitions were made by CKI during the year, namely an interest in the Meridian Cogeneration Plant in Canada and an interest in the Northumbrian Water Group Limited ("Northumbrian Water") in England. These acquisitions, in particular Northumbrian Water, are expected to act as a growth catalyst that will propel CKI's earnings to new heights. Following the share placement exercises in July 2011 and in March 2012, and the issue of U.S. dollar fixed rate callable perpetual securities via a fiduciary in February 2012, CKI has ample cash on hand and a strong balance sheet that enable it to continue to pursue infrastructure projects around the world.

Power Assets

Power Assets Holdings Limited ("Power Assets") achieved record results in 2011 with earnings from operations outside Hong Kong surpassing those from Hong Kong for the first time. Earnings from Hong Kong showed a modest decline. The overall excellent results were bolstered by the first full-year of earnings contributions from the acquisitions that Power Assets made in 2010, namely a 40% interest in UK Power Networks Limited and a 25% interest in the Seabank Power Station, both in the United Kingdom. Power Assets will continue to grow its earnings base outside Hong Kong, building on its strong foundations.

CK Life Sciences

CK Life Sciences Int'l., (Holdings) Inc. ("CK Life Sciences") achieved a steady operational performance in 2011. The acquisitions of Challenger Wine Trust, Qualco West Vineyard and Peaty Trading Group in Australia are poised to expand the reach of its agriculture-related business and boost its earnings. On the R&D front, the approval by the U.S. Food and Drug Administration of the Phase III clinical testing of CK Life Sciences' melanoma vaccine has brought CK Life Sciences to a new research milestone and a major step closer to the commercialisation of the melanoma vaccine. CK Life Sciences' fundamentals are sound and business operations are solid. It is well placed to drive further growth in the future.

Looking Ahead

Looking into 2012, global market conditions are expected to continue to improve modestly,

given that the Eurozone markets affected by sovereign debt problems are showing signs of

stabilisation, and the U.S. overall economy is on track for gradual growth as reflected by

improvements in major economic indicators, and aided by low interest rates.

The Mainland stayed relatively resilient and maintained robust GDP growth of 9.2% in 2011.

In line with the Central Government's economic growth target of 7.5%, the Mainland's

economy is expected to continue to expand solidly in 2012, although the pace may be slightly

moderated. Easing inflationary pressure, solid domestic demand, and the Central Government's

fine-tuning of its tightening policy designed to ensure stable and sustainable growth will be

positive factors conducive to its long-term prospects. Hong Kong's GDP growth will likely

moderate in the coming year, but will remain positive as the Mainland's continued steady

development will provide firm support to the local economy. Hong Kong's sound economic

fundamentals and its close proximity to the Mainland as a high growth centre will be strong

pillars for its sustainable development.

We are committed to strengthening our existing core businesses while embracing new growth

opportunities through diversification and globalisation. Looking ahead, we will continue to

pursue quality investments that carry long-term benefits for the Cheung Kong Group, and we

would expect such investments to yield promising returns in three to four years. We firmly

believe that we have the strength and resources to continue our global ventures on a path of

growth with a fine balance of progress and stability. We are strongly confident in the Cheung

Kong Group's future prospects.

Intelligent, creative, dedicated and loyal employees are the Group's most valuable asset in this

extremely competitive and challenging global environment. We take this opportunity to thank

our colleagues on the Board, the staff members of the Group and our diligent employees

worldwide for their hard work, loyal service and contributions during the year.

Property Sales

Turnover of property sales for the year, including share of property sales of jointly controlled entities, was HK\$38,143 million (2010 – HK\$29,297 million), an increase of HK\$8,846 million when compared with last year, and comprised mainly the sale of residential units of two property projects completed last year – Festival City Phases 1 and 2 in Hong Kong and La Grande Ville Phase 1 in Beijing, and the sale of residential units of property projects completed during the year, including Le Prime, Oceanaire, Uptown and Meridian Hill in Hong Kong, The Riverside Phase 3 in Guangzhou, Le Sommet Phase 3 in Shenzhen, Regency Oasis Phase 1A and Le Parc Phases 2B and 3 in Chengdu, The Greenwich Phases 2A and 3B in Xian, Regency Park Phases 2A, 2B and 2D and Regency Residence Phases 1, 2A(2) and 2B in Changchun, The Greenwich Phase 1C in Beijing, Noble Hills Phase 2A in Chongqing, The Metropolitan Tianjin Phase 2 in Tianjin, Noble Hills Phase 2 in Changsha and Regency Park Phase 2B in Shanghai.

Contribution from property sales, including share of results of jointly controlled entities, was HK\$11,218 million (2010 – HK\$8,902 million), an increase of HK\$2,316 million when compared with last year. During the year, various measures were introduced by the government authorities in Hong Kong and the Mainland to cool down the property markets and demand for residential properties remained steady in an inflationary environment.

Contribution from property sales for 2012 will mainly be derived from the sale of residential units of Festival City Phase 3, La Splendeur, Crown by the Sea and Alnwick Road Project in Hong Kong, La Grande Ville Phase 2 in Beijing, Le Parc Phase 4A in Chengdu, Century Place Phase 1 and Noble Hills in Shenzhen, Cape Coral Phase 3A in Guangzhou, The Harbourfront Phase 1 in Qingdao, Cape Coral Phase 2 in Chongqing and several other property projects scheduled for completion.

The sale/presale of residential units of Festival City Phase 3, La Splendeur and Crown by the Sea have been launched in Hong Kong and over 90% of all the units of these projects have been sold, while the sale/presale of residential units of various property projects scheduled for completion on the Mainland were progressing well.

Property Rental

Turnover of the Group's property rental for the year was HK\$1,377 million (2010 – HK\$1,264 million), an increase of HK\$113 million when compared with last year, mainly due to increase in rental rates as local business confidence, boosted by strong retail sales in Hong Kong, pushed up rentals for shops at prime locations and office spaces in major business districts. The Group's investment properties comprise mainly retail shopping malls and commercial office properties in Hong Kong, which accounted for approximately 44% and 45% respectively of the turnover of the Group's property rental for the year.

Contribution from the Group's property rental was HK\$1,274 million (2010 – HK\$1,131 million), and contribution including share of results of jointly controlled entities was HK\$1,698 million (2010 – HK\$1,817 million), a decrease of HK\$119 million when compared with last year mainly as a result of absence of rental contribution from Oriental Plaza in Beijing, previously held by jointly controlled entities, since its listing on the Hong Kong Stock Exchange in April 2011 through the setup of Hui Xian Real Estate Investment Trust ("Hui Xian REIT") and an initial public offering ("IPO") of units denominated in Renminbi. The Group shared a surplus of HK\$1,731 million arising from the IPO transaction on loss of control of indirect interest in the jointly controlled entities.

At the year end date, the Group accounted for an increase in fair value of investment properties of HK\$4,010 million (2010 – HK\$1,737 million) based on a professional valuation and shared an increase in fair value of investment properties of HK\$1,151 million (2010 – HK\$4,733 million) of jointly controlled entities.

Hotels and Serviced Suites

Turnover of the Group's hotels and serviced suites for the year was HK\$2,489 million (2010 – HK\$2,037 million), an increase of HK\$452 million when compared with last year. The increase in turnover was mainly attributable to a growing number of Mainland visitor arrivals and improving consumer confidence.

Contribution from the Group's hotels and serviced suites was HK\$916 million (2010 – HK\$617 million) and contribution including share of results of jointly controlled entities was HK\$1,188 million (2010 – HK\$852 million), an increase of HK\$336 million when compared with last year. During the year, most of the hotels and serviced suites owned by the Group and jointly controlled entities in Hong Kong and the Mainland achieved good occupancy and room rates, and satisfactory operating results were reported.

In January 2012, a 70% interest in Sheraton Shenyang Lido Hotel held by the Group on the Mainland was disposed of at a profit to Hui Xian REIT. The disposal will have no significant impact on the overall contribution from the Group's hotels and serviced suites in 2012.

While the global economy poses uncertainties ahead, local business travel and inbound tourism remain active, and the Group will continue to strive for good performance for its hotel and service suite operation.

Property and Project Management

Turnover of the Group's property and project management for the year was HK\$350 million (2010 – HK\$265 million), of which income from property management was HK\$161 million (2010 – HK\$159 million), an increase of HK\$2 million when compared with last year, and income from project related services was HK\$189 million (2010 – HK\$106 million), an increase of HK\$83 million when compared with last year.

Contribution from the Group's property management was HK\$105 million (2010 – HK\$104 million), an increase of HK\$1 million when compared with last year, while the Group's project related services made a small contribution to group profit. After the listing of Hui Xian REIT on the Hong Kong Stock Exchange, the Group continued to take part in the management of Oriental Plaza in Beijing through the manager, a jointly controlled entity, and shared the results of the manager.

The Group is committed to providing high quality services to properties under our management. At the year end date, the total floor area under the Group's property management was approximately 88 million square feet and this is expected to grow steadily following the gradual completion of the Group's property projects in the years ahead.

Major Associates

The Hutchison Whampoa Group, a listed associate, reported profit attributable to shareholders for the year ended 31st December, 2011 of HK\$56,019 million (2010 (restated) – HK\$20,179 million). A net gain of HK\$32,868 million, comprising a gain on the IPO of Hutchison Port Holdings Trust of HK\$44,290 million and impairment charges and write off on certain port and telecommunications assets totalling HK\$11,422 million was included in the annual profit reported by the Hutchison Whampoa Group.

The CK Life Sciences Group, another listed associate, reported profit attributable to shareholders for the year ended 31st December, 2011 of HK\$125.8 million (2010 – HK\$208.6 million).

FINANCIAL REVIEW

Liquidity and Financing

The Group monitors its liquidity requirements on a short to medium term basis and arranges refinancing of the Group's borrowings when appropriate. During the year, the Group issued notes with five-year and ten-year terms under the Euro Medium Term Note Programme in the total amount of HK\$1.4 billion in Hong Kong and notes with five-year and seven-year terms in the total amount of SGD500 million in Singapore, and redeemed notes in the amount of HK\$1.7 billion upon maturity.

At the year end date, the Group's bonds and notes, bank loans and other loans were HK\$9.5 billion, HK\$35.9 billion and HK\$0.5 billion respectively, and the Group's total borrowings amounted to HK\$45.9 billion, an increase of HK\$8.8 billion from last year end date. The maturity profile is spread over a period of ten years, with HK\$22.9 billion repayable within one year, HK\$18.6 billion within two to five years and HK\$4.4 billion beyond five years.

During the year, the Group also issued perpetual securities with an annual distribution rate of 5.125% in the total amount of SGD730 million. With no fixed maturity, the perpetual securities are redeemable at the Group's option on or after 9th September, 2016 and are accounted for as equity in the financial statements.

The Group's net debt to net total capital ratio at the year end date was approximately 7.6%. Net debt is arrived at by deducting bank balances and deposits of HK\$19.9 billion from the Group's total borrowings and net total capital is the aggregate of the Group's total equity and net debt.

With cash and marketable securities in hand as well as available banking facilities, the Group's liquidity position remains strong and the Group has sufficient financial resources to satisfy its commitments and working capital requirements.

Treasury Policies

The Group maintains a conservative approach on foreign exchange exposure management. At the year end date, approximately 67.6% of the Group's borrowings were in HK\$ and US\$, with the balance in GBP and SGD mainly for the purpose of financing investments and property projects in the United Kingdom and Singapore. The Group derives its revenue mainly in HK\$ and cash is mainly held in HK\$. Income in foreign currencies, including RMB, SGD and GBP, is also generated from the Group's investments and property projects outside Hong Kong and cash in these foreign currencies is maintained for operational needs. The Group ensures that its exposure to fluctuations in foreign exchange rates is minimised.

The Group's borrowings are principally on a floating rate basis and where appropriate, swaps are arranged to convert the rates and related terms of the fixed rate bonds and notes issued to a floating rate basis.

At times of interest rate or exchange rate uncertainty or volatility and when appropriate, hedging instruments including swaps and forwards are used by the Group in the management of exposure to interest rate and foreign exchange rate fluctuations.

(6) The Hong Kong Institute of Certified Public Accountants has issued a number of new and revised Hong Kong Financial Reporting Standards ("HKFRSs"). For those HKFRSs which are effective for accounting periods beginning on 1st January, 2011, the adoption has no significant impact on the Group's results and financial position. The Group and its listed associate, Hutchison Whampoa Limited ("Hutchison"), have also adopted HKAS 12 (Amendments) "Deferred Tax: Recovery of Underlying Assets", which will be effective for accounting periods beginning on 1st January, 2012, in the preparation of the financial statements.

In prior years, deferred tax was provided on the basis that the carrying amounts of investment properties would be recovered through use. Following the adoption of HKAS 12 (Amendments), deferred tax is provided on the basis that the carrying amounts of the investment properties will be recovered through sale except that the basis of recovery through use will continue to apply to those investment properties which are depreciable and are held with an objective to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. This change in accounting policy has been applied retrospectively.

The impact of the said change in accounting policy, including the Group's share of its impact on Hutchison, have effects on the Group's financial statements as follows:
