As a Hong Kong based commercial organization, the Cheung Kong Group has always supported the invaluable role played by the Community Chest. In the past few years when fund-raising was faced with challenges, we launched a number of special initiatives to promote donations. This year we continue to match public donations to raise more funds – for every HK\$3 the public donates, the Cheung Kong Group will donate \$3 to double the amount received by the Community Chest. We hope that this initiative will trigger more public donations and consequently, a larger overall amount raised for the Chest".

The Community Chest Campaign Committee Chairman, Mr Raymond Or, JP, noted: "The Cheung Kong Group has continually partnered with the Community Chest to promote charitable causes, displaying a great commitment to the people of Hong Kong. By organizing innovative donation programs and through promoting active participation from its member companies and business partners, the Cheung Kong Group has set an excellent example of good corporate citizenship".
